These financial statements are the responsibility of the Plan's trustees. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the City of Wilton Manors, Florida Pension Plan for General Employees and Police as of September 30, 2006 and 2005 and the changes in its financial status for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The combining financial statements in Schedules 3 and 4 are presented for purposes of additional analysis and are not a required part of the combined financial statements of the City of Wilton Manors, Florida Pension Plan for General Employees and Police. Such information has been subjected to the auditing procedures applied in the audit of the combined financial statements and, in our opinion, is fairly presented in all material respects in relation to the combined financial statements taken as a whole.

The management's discussion and analysis on pages 2 – 5 and the supplementary information in Schedules 1 and 2 which show historical pension information are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and do not express an opinion on it.

FOR GENERAL EMPLOYEES AND POLICE  
NOTES TO COMBINED FINANCIAL STATEMENTS  
SEPTEMBER 30, 2006 AND 2005**

**Note 1 – Description of the Plan (continued)**

d. Funding Requirements (continued)

City and State Contributions:

Pursuant to Florida Statutes, Chapters 185, contributions from the State of Florida Department of Insurance consist of an excise tax imposed by the City upon certain casualty insurance companies on the gross amount of receipts of premiums from policy holders on all premiums collected on casualty insurance policies covering property within the City. The allowable portion of the State contribution is used to reduce the City's contribution for Police when received. The City is expected to contribute such additional amounts as are necessary on an actuarial basis to fund the Plan's expenses, normal cost and to amortize the unfunded actuarial accrued liability.

At the present time the State of Florida is withholding contributions payable to the Plan under Chapter 185, Florida Statutes. The State's contention is that the Plan must be severed into two independent retirement plans.

e. Pension Benefits

Normal Retirement:

The date upon which the member completed twenty years of credited service regardless of age or the date upon which the member attains age sixty with five years of credited service may retire on a normal retirement benefit.

Members will receive a monthly pension benefit equal to 3.0% of the Average Monthly Compensation times the years of credit service.

Early retirement, disability, death and other benefits are also provided.

Deferred Retirement Option Plan:

Members who continue employment with the City past normal retirement date may freeze their accrued benefit and enter the Deferred Retirement Option Plan (DROP). Maximum participation in the DROP shall be five years.

For members electing participation in the DROP, an individual DROP account shall be created. Payment shall be made by the Plan into the employee's DROP account in an amount equal to the regular monthly retirement benefit which the participant would have received had the participant separated from service and commenced receipt of pension benefits, plus interest. Interest shall be based on the actual earnings of the plan for the preceding year. Upon termination of employment, a member may receive distribution from the DROP account as a lump sum or defer payment in accordance with the Internal Revenue Code.

A DROP participant shall not be entitled to receive a disability retirement for pension purposes. If a member shall die during participation in the DROP, the member shall be treated as any other vested member in the plan that dies prior to retirement.

This benefit shall commence on the first day of the month following separation from service, providing the member is retired and receiving an early, normal or disability pension. The post retirement supplement shall not be paid to terminated vested members or to members who retired prior to October 1, 2003.

f. Cost-of-Living Adjustment

Effective October 1, 2004 an Ordinance providing for a temporary cost-of-living adjustment (COLA) was created for members of the police bargaining unit and non-sworn members participating in the General Employees Plan. The COLA will apply to police personnel who are in the DROP plan prior to October 1, 2002. The annual COLA adjustment will be 3%. The provisions of this ordinance shall expire after September 30, 2005.

g. Investments

The Plan's investment policy is determined by the Board of Trustees and is implemented by investment managers. In addition, the Plan utilizes an investment advisor who monitors the investing activities. The City Code stipulates that the trustees shall, in acquiring, investing, reinvesting, exchanging, retaining, selling and maintaining property for the benefit of the Plan exercise the judgment and care under the circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs.

**Note 2 – Summary of Significant Accounting Policies**

a. Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting. Member contributions are recognized as revenues in the period in which employee services are performed. Employer contributions are recognized as revenues when due pursuant to actuarial valuations. Interest and dividend income are recorded as earned. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

For the year ended September 30, 2005, the Plan adopted GASB Statement No. 40 *Deposit and Investment Risk Disclosures* (an amendment of GASB Statement No. 3). The adoption of GASB 40 requires the Plan to include a presentation of deposit and investment risk disclosures.

The adoption of GASB 40 did not have an impact on the Plan's financial statements.

FOR GENERAL EMPLOYEES AND POLICE  
NOTES TO COMBINED FINANCIAL STATEMENTS  
SEPTEMBER 30, 2006 AND 2005**

**Note 2 – Summary of Significant Accounting Policies (continued)**

b. Investments

Investments are recorded at fair market value. Fair market values of investments are determined as follows: securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the fiscal year; securities traded in the over-the counter market and listed securities for which no sale was reported on that date are valued at the last reported bid price; commercial paper, time deposits and short-term investment pools are valued at cost which approximates market; mortgages are valued based on current market yield.

Unrealized gains and losses are presented as net appreciation (depreciation) in fair value of investments on the combined statement of changes in plan net assets along with gains and losses realized on sales of investments. Purchases and sales of securities are reflected on a trade date basis. Realized gains and losses on the sale of investments are based on specific cost identification method.

c. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

d. Cash Equivalents

The Plan consider all highly liquid investment with maturity of three months or less when purchased, to be cash equivalents

**Note 3 – Deposit and Investment Risk Disclosures**

a. Investment Authorization

The Plan's investment policy is determined by the Board of Trustees. The policy has been identified by the Board to conduct the operations of the Plan in a manner so that the assets will provide the pension and other benefits provided under applicable laws, including City ordinances, thereby fulfilling the Plan's main objective of capital preservation with capital appreciation and some level of current income. The Trustees are authorized to acquire and retain every kind of property, real, personal or mixed, and every kind of investment specifically including, but not by way of limitation, bonds, debentures, and other corporate obligations, and stocks, preferred or common.

Investment in common stock or capital stock shall be limited to those listed on a major U.S. stock exchange and limited to no more than 70% (at market) of the Plan's total asset value, with no more than 5% of the Plan's total assets, at cost, invested in the common stock of any one company. Moreover, not more than 20% of each portfolio shall be invested in any single industry at cost.

The fixed income portfolio shall be comprised of securities rated "A" or higher by a nationally recognized rating agency. Except for U.S. treasury and Agency obligation, no manager should invest more than 5% of the Plan assets in the securities of a single issuer. No issues may be purchased with more than 15 years to maturity.

b. Types of Investments

Florida statutes and Plan investment policy authorize the Trustees to invest funds in various investments. The current maximum target allocation of these investments is as follows at September 30:

	2006		2005	
	Maximum target % of portfolio	Actual % of portfolio	Maximum target % of portfolio	Actual % of portfolio
<u>Authorized investments</u>				
Equity	70.0%	66.9%	70.0%	67.3%
Fixed income	65.0%	27.7%	65.0%	28.7%
Cash equivalents	50.0%	5.5%	50.0%	4.0%

c. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. As a means of limiting its exposure to interest rate risk, the Plan diversify its investment by security type and institution, and limits holdings in any one type of investment with any one issuer with various durations of maturities.

Information about the sensitivity of the fair values of the Plan's investment to market interest rate fluctuations is provided by the following table that shows the distribution of the Plan's investment by maturity at September 30:

<u>Investment Type</u>	<u>Fair Value</u>	2006 <u>Investment Maturities (in years)</u>

d. Credit Risk

Credit risk is the risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. This risk is generally measured by the assignment of a rating by a nationally recognized statistical rating organization. The Plan's investment policy utilizes portfolio diversification in order to control this risk.

The following tables disclose credit ratings by investment type, at September 30, as applicable:

	2006		2005	
	<u>Fair Value</u>	<u>Percentage of Portfolio</u>	<u>Fair Value</u>	<u>Percentage of Portfolio</u>

\*Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not have purchase limitations.

e. Concentration of Credit Risk

The investment policy of the Plan contains limitations on the amount that can be invested in any one issuer as well as maximum portfolio allocation percentages. There were no individual investments that represent 5% or more of combined plan net assets at September 30, 2006 and 2005.

f. Custodial Credit Risk

This is the risk that in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Consistent with the Plan's investment policy, the investments are held by Plan's custodial bank and registered in the Plan's name.
