Independent Auditors' Report

Board of Trustees
City of Wilton Manors
Volunteer Firefighters Retirement System
Wilton Manors, Florida

We have audited the accompanying statements of the City of Wilton Manors, Volunteer Firefighters Retirement System (the "System"), which comprise the statements of plan net position as of September 30, 2013 and 2012, and the related statements of changes in plan net position for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

The System's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Independent Auditors' Report
(continued)**

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of City of Wilton Manors, Volunteer Firefighters Retirement System as of September 30, 2013 and 2012, and the changes in plan net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

United States generally accepted accounting principles require that the management's discussion and analysis and required supplementary information as listed in the accompanying table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the basic financial statements of the System. The accompanying supplementary schedules of investment expenses and administrative expenses (other supplementary schedules) as listed in the accompanying table of contents is presented for purposes of additional analysis and are not a required part of the basic financial statements. The information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

**Management's Discussion and Analysis
(Required Supplementary Information - Unaudited)
September 30, 2013 and 2012**

Our discussion and analysis of the City of Wilton Manors Volunteer Firefighters Retirement System (the "System") financial performance provides an overview of the System's financial activities for the fiscal years ended September 30, 2013 and 2012. Its purpose is to provide explanations and insights into the information presented in the financial statements, notes to the financial statements and required supplementary information. Please read it in conjunction with the System's financial statements, which follow this discussion.

Financial Highlights

- The System's assets exceeded liabilities at the close of the fiscal years ended September 30, 2013 and 2012 by \$1,236,463 and \$1,057,918, respectively, (reported as net position held in trust for pension benefits). Net position is held in trust to meet future benefit payments. The increases of \$178,545 and \$240,735 of the respective years have resulted primarily from the changes in the fair value of the System's investments due to volatile financial markets.
- The System's funded ratio, a comparison of the actuarial value of assets to the actuarial accrued pension liability, changed from 61.3% as of October 1, 2010 actuarial valuation to 60.6% as of October 1, 2011 valuation and to 61.9% as of October 1, 2012 valuation.
- For the fiscal year ended September 30, 2013, receivables decreased by \$5,177 (or 9.0%) primarily due to a decrease in receivable due from contributing entity.

For the fiscal year ended September 30, 2012, receivables increased by \$14,774 (or 34.6%) primarily due to an increase in receivable due from contributing entity.

- For the fiscal year ended September 30, 2013, there were no liabilities which was the same as last year.

For the fiscal year ended September 30, 2012, there was no liability which was the same as last year.

- For the fiscal year ended September 30, 2013, entity contributions to the System decreased by \$8,166 (or 5.6%) from 2012. Actual entity contributions were \$138,483 and \$146,649 for 2013 and 2012, respectively.

For the fiscal year ended September 30, 2012, entity contributions to the System increased by \$31,970 (or 27.9%) from 2011. Actual entity contributions were \$146,649 and \$114,679 for 2012 and 2011, respectively.

Overview of the Financial Statements

The basic financial statements include the Statements of Plan Net Position and Statements of Changes in Plan Net Position and Notes to the Financial Statements. The System also includes in this report additional information to supplement the financial statements.

The System presents two types of required supplementary schedules, which provide historical trend information about the System's funding. The two types of schedules include a schedule of funding progress and a schedule of contributions by other contributing entity.

The System prepares its financial statements on the accrual basis of accounting and in accordance with generally accepted accounting principles in the United States of America. These statements provide information about the System's overall financial status.

Management's Discussion and Analysis
(Required Supplementary Information - Unaudited)
September 30, 2013 and 2012

Description of the Financial Statements

The *Statement of Plan Net Position* presents information that includes all of the System's assets and liabilities, with the balance representing the Net Position Held in Trust for Pension Benefits. It is a snapshot of the financial position of the System at that specific point in time and reflects the resources available to pay members, retirees and beneficiaries at that point in time.

The *Statement of Changes in Plan Net Position* reports how the System's net position changed during the fiscal year. The additions and deductions to net position are summarized in this statement. The additions include contributions to the retirement plan from contributing entity (State of Florida) and net investment income (loss), which includes interest, dividends, and the net appreciation or depreciation in the fair value of investments. The deductions include benefit payments, refunds of member contributions, and administrative expenses.

The *Notes to the Financial Statements* are presented to provide the information necessary for a full understanding of the financial statements. They include additional information not readily evident in the statements themselves such as a description of the System, contributions, significant accounting policies, funding policy, and investment risk disclosure.

There are also two *Required Supplementary Schedules* included in this report as required by the Governmental Accounting Standards Board. The *Schedule of Funding Progress* presents historical trend information about the actuarially determined funded status of the System from a long-term, ongoing plan perspective, and the progress made in accumulating sufficient assets to fund benefit payments as they become due. The *Schedule of Contributions by Other Contributing Entity* presents historical trend information about the annual required contributions and percentage of such contributions in relation to actuarially determined requirements for the years presented.

Additional information is presented as part of *Other Supplementary Schedule*. This section is not required but management has chosen to include it. It includes *Schedule of Administrative Expenses* which presents the expenses incurred in the administration of the System.

City of Wilton Manors Volunteer Firefighters Retirement System

Notes to Financial Statements

September 30, 2012 and 2011

Note 1 - Description of the Plan

Organization

The City of Wilton Manors Volunteer Firefighters Retirement System (the “System”) is a single-employer defined benefit plan established by the City of Wilton Manors, Florida (the “City”) pursuant to the provisions and requirements of Chapter 21 of the City of Wilton Manors Code of Ordinances. Since the System is sponsored by the City, the System is included as a pension trust fund in the City’s comprehensive annual financial report as part of the City’s financial reporting entity.

The following brief description of the System is provided for general information purposes only. Participants should refer to the plan agreement for more detailed and comprehensive information.

Participants

All active members of the Wilton Manors Volunteer Fire Department are members of the System.

Membership

As of October 1, membership in the System consisted of:

	2012	2011
Retirees and beneficiaries currently receiving benefits	2	2
<u>Active plan participants</u>	8	8
<u>Total participants</u>	10	10

Funding Requirements

Members are not required to contribute to the System and benefits are not compensation related.

Pursuant to Florida Statutes, Chapter 175, contributions from the State of Florida Department of Insurance (“contributing entity”) consist of an excise tax imposed by the City upon certain casualty insurance companies on the gross amount of receipts of premiums from policy holders on all premiums collected on casualty insurance policies covering property within the City. See Note 6 – Due from Contributing Entity.

Pension Benefits

Normal Retirement:

The normal retirement date for a member shall be the first day of the month coinciding with or next following the attainment of the earlier of the member’s fifty-fifth (55th) birthday, or the member’s fiftieth (50th) birthday and completion of 20 years of continuous service as an active member of the Wilton Manors Volunteer Fire Department. A member will be 100% vested at the attainment of his normal retirement date regardless of any other provisions of the System.

City of Wilton Manors Volunteer Firefighters Retirement System

Notes to Financial Statements

September 30, 2012 and 2011

Note 1 - Description of the Plan - continued

Pension Benefits - continued

Members will receive a monthly pension benefit equal to \$56 (\$50 prior to November 14, 2006) multiplied by the years of creditable service.

Deferred retirement, disability, death and other benefits are also provided.

Investments

The System's investments are commingled with those of the City of Wilton Manors Pension Plan for General Employees and Police as more fully described in Note 7. Because the System's investments are commingled as discussed above, the System's investment policy, monitoring, authorization and allocation is the same as that of the City of Wilton Manors, Florida Pension Plan for General Employees and Police.

The System's investment policy is determined and approved by the Board of Trustees and is implemented by investment managers. In addition, the System's investments are monitored by an investment advisor. The City Code stipulates that the trustees shall, in acquiring, investing, reinvesting, exchanging, retaining, selling and maintaining property for the benefit of the System exercise the judgment and care under the circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs.

The trustees are authorized to acquire and retain various kinds of property, real, personal or mixed, and various types of investments specifically including, but not by way of limitation, bonds, debentures and other corporate obligations, and stocks, preferred or common, which persons of prudence, discretion and intelligence acquire or retain for their own account. The investment of funds shall be in a manner that is consistent with the applicable sections of the City Code as well as State and Federal laws within the allocation percentages established by the trustees.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The System's financial statements are prepared using the accrual basis of accounting. State contributions ("Other Contributing Entity") are recognized as revenue in the period in which they are approved by the State. Interest income is recorded as earned and dividend income is recorded as of the ex-dividend date. Benefits are recognized when due and payable in accordance with the terms of the System.

Cash and Cash Equivalents

The System considers all highly liquid investments with an original maturity of one year or less when purchased, to be cash equivalents.

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies - continued

Investments

Investments are recorded at fair value in the Statement of Plan Net Position. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The diversity of the investment types in which the System has entered into requires a range of techniques to determine fair value. The overall valuation processes and information sources by major investment classification are as follows:

- **Debt securities:** Debt securities consist primarily of negotiable obligations of the U.S. government and U.S. government-sponsored agencies and corporate bonds. These securities can typically be valued using the close or last traded price on a specific date (quoted prices in active markets). When quoted prices are not available, fair value is determined based on valuation models that use inputs that include market observable inputs. These inputs included recent trades, yields, price quotes, cash flows, maturity, credit ratings, and other assumptions based upon the specifics of the investment's type.
- **Equity securities:** These include common stocks, domestic and international equity funds. Domestic securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the fiscal year. Securities traded in the over-the counter market and listed securities for which no sale was reported on that date are valued at the last reported bid price. International equities are valued based upon quoted foreign market prices and translated into U.S. dollars at the exchange rate in effect at September 30, 2013 and 2012. Securities which are not traded on a national security exchange are valued by the respective fund manager or other third parties based on yields currently available on comparable securities of issuers with similar credit ratings.

Unrealized gains and losses are presented as net appreciation in fair value of investments on the statement of changes in plan net position along with gains and losses realized on sales of investments. Purchases and sales of securities are reflected on a trade-date basis. Interest income is recognized as earned and dividend income is recorded as of the ex-dividend date. Realized gains and losses on the sale of investments are based on average cost identification method.

Given the inherent nature of investments, it is reasonably possible that changes in the value of those investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of plan net position.

Income Tax Status

The System is exempt from Federal income taxes under the Internal Revenue Code and, therefore, has recorded no income tax liabilities or expense.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

City of Wilton Manors Volunteer Firefighters Retirement System

Notes to Financial Statements

September 30, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies - continued

Risks and Uncertainties

Contributions to the System and the actuarial information included in the required supplementary information (RSI) are reported based on certain assumptions pertaining to the interest rates, inflation rates and member compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions may occur in the near term and, due to the uncertainties inherent in settling assumptions, that the effect of such changes could be material to the financial statements.

Recently Adopted Accounting Pronouncements

The System has adopted Governmental Accounting Standards Board ("GASB") Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position* (GASB Statement No. 63). The adoption of this Statement resulted in a change in the presentation of the Statement of Plan Net Assets to what is now referred to as the Statement of Plan Net Position and the term "net assets" is changed to "net position" throughout the financial statements.

Subsequent Events

Management has evaluated events through March 4, 2014, the date which the financial statements were available to be issued.

Note 3 - Funding Requirements and Contributions

The actuarial valuation as of October 1, 2012 required a contribution of \$83,951 for the year ended September 30, 2013 and the actuarial valuation as of October 1, 2011 required a contribution of \$81,024 for the year ended September 30, 2012. For the years ended September 30, 2013 and 2012, the actual entity contributions were \$138,483 and \$146,649, respectively. The required contributions cover the following:

Investment Authorization

The System's investment policy is determined and approved by the Board of Trustees. The policy has been identified by the Board to conduct the operations of the System in a manner so that the assets will provide the pension and other benefits provided under applicable laws, including City ordinances, thereby fulfilling the System's main objective of capital preservation with capital appreciation and some level of current income. The Trustees are authorized to acquire and retain every kind of property, real, personal or mixed, and every kind of investment specifically including, but not by way of limitation, bonds, debentures, and other corporate obligations, and stocks, preferred or common.

Investment in common stock or capital stock shall be limited to those listed on a major U.S. stock exchange and limited to no more than 70% (at market) of the System's total asset value, with no more than 5% of the System's total assets, at cost, invested in the common stock of any one company. Moreover, not more than 20% of each portfolio shall be invested in any single industry at cost.

Managers should not purchase fixed income securities rated less than "A" by a nationally recognized rating agency. Except for U.S. treasury and U.S. Agency obligation, no manager should invest more than 5% of the System assets in the securities of a single issuer. No issues may be purchased with more than 15 years to maturity.

Types of Investments

Florida statutes and System investment policy authorize the Trustees to invest funds in various investments. The current maximum target allocation of these investments is as follows:

	2013		2012	
	Maximum target % of portfolio	Actual % of portfolio	Maximum target % of portfolio	Actual % of portfolio
Authorized investments				
Domestic equity	70%	61.2%	70%	18.7%

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. As a means of limiting its exposure to interest rate risk, the System diversifies its investments by security type and institution, and limits holdings in any one type of investment with any one issuer with various durations of maturities.

Credit Risk

Credit risk is the risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. This risk is generally measured by the assignment of a rating by a nationally recognized statistical rating organization. The System's investment policy utilizes portfolio diversification in order to control this risk.

The following tables disclose credit ratings by investment type, at September 30, as applicable:

	2013		2012	
	Fair Value	Percentage of Portfolio	Fair Value	Percentage of Portfolio
U.S. government guaranteed*	\$ 165,418	55.73%	\$ 218,022	60.93%
Quality rating of credit risk debt securities:				
AA	14,139	4.76	9,996	2.79
A+	14,569	4.91	15,839	4.44
A	21,189	7.14	44,489	12.43
A-	72,858	24.55	57,179	15.98
BBB	8,632	2.91	12,274	3.43
Total credit risk debt securities	131,387	44.27	139,777	39.07
Total fixed income securities	\$ 296,805	100.00%	\$ 357,799	100.00%

*Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not have purchase limitations.

Concentration of Credit Risk

The investment policy of the System contains limitations on the amount that can be invested in any one issuer as well as maximum portfolio allocation percentages. There were no individual investments that represent 5% or more of plan net position at September 30, 2013 and 2012.

Custodial Credit Risk

Deposits are exposed to custodial risk if they are uninsured and uncollateralized. Custodial risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Plan will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Plan's deposits are covered by depository insurance or are collateralized by securities held with a financial institution in the Plan's name. The Plan is only exposed to custodial credit risk for uncollateralized cash and cash equivalents that are not covered by federal depository insurance.

Custodial risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Plan will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial risk if the securities are uninsured, are not registered in the name of the Plan, and are held either by the counterparty or the counterparty's trust department or agent but not in the Plan's name.

Consistent with the Plan's investment policy, the investments are held by Plan's custodial banks and registered in the Plan's name. All of the Plan's deposits are insured and or collateralized by a financial institution separate from the Plan's depository financial institution.

Note 7 - Management Agreement

The System has an agreement with the City of Wilton Manors Pension Plan for General Employees and Police (the "Plan") to keep custody of and manage the assets of the System. The Plan is providing this service as an accommodation and does not incur any fiduciary obligation to the System separate and apart from the fiduciary responsibility of the professional custodian and money managers to the Plan. For the years ended September 30, 2013 and 2012, \$1,187,847 and \$1,006,311 respectively, of the System's assets are included as assets on the Plan's combined statements of plan net position with \$1,187,847 and \$1,006,311 reflected as a contra-asset account, to Assets Allocated to Firefighters Retirement System on the Plan's statement of plan net position for each of those years. The System reflects the prorata allocation of these amounts each year within the various asset categories on the statements of plan net position.
